

Resolve Ai Accelerates Global Stablecoin Payments Rollout to Power the Next Wave of Agentic Commerce

December 3, 2025 1:00 PM EST

More than \$1B in stablecoin transactions processed as Resolve extends payments capabilities across its growing enterprise customer base, accelerated by the addition of Crownpeak

NEW YORK, Dec. 03, 2025 (GLOBE NEWSWIRE) -- Resolve Ai (NASDAQ: RZLV), the commerce-focused AI company powering conversational, agentic and intelligent transactions for major global enterprises, today announced the next phase of its stablecoin payments expansion following a year of exceptional commercial growth across Western markets.

Resolve has already processed **more than \$1 billion** in USD $\overline{\text{₹}}$ and Bitcoin transactions last year through its payments infrastructure in Brazil, which it believes validates real-world consumer and merchant adoption of digital asset payments. The company now plans to **extend these capabilities into North America, the UK and Europe**, building on its already significant enterprise presence and enhanced further by the recently announced acquisition of Crownpeak.

Crownpeak: Strengthening an Already Growing Western Enterprise Footprint

Resolve already serves a broad set of Western enterprise customers across retail, fashion, finance and hospitality. The addition of **Crownpeak**, a leading enterprise digital experience platform with hundreds of major global deployments, is expected to **expand and accelerate Resolve's reach** and create even more opportunities to embed AI-driven commerce and stablecoin payments into existing customer journeys.

Rather than establishing Resolve's Western footprint, Crownpeak is expected to:

- **broaden** Resolve's distribution
- **deepen** integration points with enterprise digital experiences
- **amplify** Resolve's ability to activate stablecoin payments within established customer bases

Daniel Wagner, Founder & CEO of Resolve Ai, commented:

"Resolve has had an exceptional year of growth with major Western enterprises already deploying our AI-driven commerce platform. Crownpeak is expected to strengthen and accelerate what was already working, giving us deeper integration points and wider distribution for rolling out stablecoin payments across markets where we already have meaningful traction. Our ecosystem also now includes the high-performance on-chain data capabilities of Subsqid (SQD), giving us the long-term infrastructure required to support agentic and stablecoin transactions at true global scale, well ahead of the industry curve."

Building the World's First End-to-End AI + Stablecoin Commerce Rail

Resolve's platform is designed to unify conversational commerce, agentic shopping, instant checkout and stablecoin payments into a seamless, AI-driven flow from product discovery to real-time settlement.

This architecture is intended to reduce transaction friction and reflects how AI-driven commerce journeys increasingly can culminate in instant, digital completion.

Together with Subsqid's decentralised data infrastructure, Resolve is building one of the world's first unified environments capable of powering AI-driven, agent-executed and on-chain transactions at global scale.

"Stablecoins are rapidly becoming the settlement layer of the agentic economy," Wagner added.

"With strong Western customer adoption and the expanded enterprise reach brought by Crownpeak, Resolve is uniquely positioned to drive this transformation globally."

About Resolve Ai

Resolve Ai (NASDAQ: RZLV) is an industry leader in AI-powered solutions, specializing in enhancing customer engagement, operational efficiency, and revenue growth. The Brain Suite is the world's first enterprise AI platform built for Agentic Commerce, delivering advanced tools that harness artificial intelligence to power search, transact, fulfill, and personalize at global scale. Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1996. The actual results of Resolve AI plc ("Resolve") may differ from their expectations, estimates and projections and consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as "expect", "estimate", "project", "budget", "forecast", "anticipate", "intend", "plan", "may", "will", "could", "should", "believes", "predicts", "potential", "continue", and similar expressions are intended to identify such forward-looking statements. These forward-looking statements include, without limitation, Resolve's expectations with respect to digital

assets payment technology, the anticipated benefits of the Crownpeak and Subsquid acquisitions, the anticipated annual recurring revenue and EBITDA in connection with the acquisition; and Rezolve's expectations regarding the expected benefits of the acquisition. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from the expected results. You should carefully consider the risks and uncertainties described in the "Risk Factors" section of Rezolve's Annual Report on Form 20-F and its subsequent filings made with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Most of these factors are outside Rezolve's control and are difficult to predict. Factors that may cause such differences include, but are not limited to: (1) competition, the ability of Rezolve to grow and manage growth profitably, and retain its management and key employees; (2) changes in applicable laws or regulations; and (3) weakness in the economy, market trends, uncertainty and other conditions in the markets in which Rezolve operates, and other factors beyond its control, such as inflation or rising interest rates. Rezolve cautions that the foregoing list of factors is not exclusive and not to place undue reliance upon any forward-looking statements, including projections, which speak only as of the date made. Except as required by applicable law, Rezolve does not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances, or otherwise.
